NO CHANGE IN THE SITUATION, strikers of the St. Louis Transfer Company, confident of protection by the militia, have returned to their old places, and scores of tay morning, bauling freight to the various depots in East St. Louis. The force of switch and yard men who returned to work Monday was increased yesterday selves of the military protection to seems employment. Most of the roads new have full exews of switch and yard men, and it is

expected that in a few days the resumption of operations by a large majority of the roads will be complete. Monday the bridge company had not been able to secure a sufficient number of men to handle all the freight that the roads were offering. but several more of the men have returned to work, and that company is doing a busi-ness almost as large as it was before the engines were rimning back and forth all day making up freight trains, two of which ande up in the other yards will soon fol

Protective Armor as a Possibility. A comparison of ancient and moden fir arms shows, however, that the bullets of or far-reaching rifles are continually gette smaller and lighter. The Spanish escopes the seventeenth century fired balls weight nearly three ounces; the oldest German donner-birchsen fired just five bullets to the donner-surensen meet pass the cannot be described by pound. Against such projectiles the panophy of a mall-clad knight was, of course, as useless as a paper-collar, but the continued attenuation of those projectiles may yet lead to the reintroduction of defensive armor.—Dr.
